(Record of item checked above)		
TO: <b>Karen Flournay</b>	FROM: <b>David Trombold</b> <b>Reid Supply</b>	DATE TIME
SUBJECT  <b>Reid Supply Part B App.</b>		
SUMMARY OF COMMUNICATION		
<p><u>11-13-84</u> Dave called w/ ? on comments rec'd. from KDHE, which incl. EPA comments, #9 diked area for incompatible - shown on revised drawing - I ask that he explain how incompatibles will be handled; #12 closure cost est. - transportation cost incl. in disposal cost - note as such; sampling methods - I told him they should use req'd. methods when at all possible - they need to be more specific - maybe by category of waste as to when req'd. methods can &amp; can't be used; #16 - process info. - have put together drawing w/ res. times, etc.</p> <p><u>11-15-84</u> Dave called w/ ? on handling dry cleaning cartridges. He wanted to know how to incl. in Part B since they would be handling these in a few months - he wanted to know about revising permit app. later. I ask if they were going to be processing the cartridges soon - he said yes. I suggested they address cartridges in separate section of permit app. so we could begin developing draft permit based upon remainder of app. &amp; send out any comments to be resolved on cartridges. He then brought up waste analysis - would they have to analyze all or some &amp; say those are representative. Told him we would require analysis of all unless they could demonstrate that all use same product - he said they could make demonstration because they sell product to their customers &amp; then would pick up dirty cartridges. I ask that any req. in addition to waste analysis, applicable to cartridges be included</p>
